

CANDALA CHRYSOPRASE.

ALL ABOUT CHRYSOPRASE:

Candala Chrysoprase is one of only two sources of the world's finest Chrysoprase from Marlborough in Queensland, Australia. The other source is a wholly-owned Chinese company who call it Australian Jade and process all of their material in China.

While Marlborough Chrysoprase has the same properties as most other Chrysoprase, it is the quality that makes it stand out as the very best. Unique geological structures at Marlborough protected the formation of the gemstone and helped it maintain its beautiful colour.

Unique geological structures at Marlborough protected the formation of the gemstone and helped it maintain its beautiful colour.

A piece of Candala's Imperial Chrysoprase is a very rare and beautiful gem.

Treasured by the likes of Alexander the Great and Cleopatra, Chrysoprase has long been a highly sought after and valued possession.
